

## Special Issue

# Renewable and Sustainable Energy

### Message from the Guest Editor

The special issue “Renewable and Sustainable Energy” focuses on different types of renewable energy: solar energy, wind energy, geothermal energy, ocean energy (e.g. wave and tidal energy), biomass, etc. Articles on all aspects of renewables are welcome, e.g. production techniques, power conversion, potential studies, use of renewable energy, integration of renewables in power systems, economic and regulatory issues, etc. Preferably, the articles include an analysis or at least an indication of the sustainability of the technology considered. I invite all researchers active in the broad and fascinating domain of renewable energy to submit articles for this special issue of the newly launched “Clean Technologies” journal.

## About the Journal

### Message from the Editor-in-Chief

*Clean Technologies* (ISSN 2571-8797) is an international, open access journal of novel scientific research on technology development aimed at reducing the environmental impact of human activities. *Clean Technologies* publishes reviews, regular research papers, communications and short notes which show a significant advance in the development of sustainable technology that reduces energy consumption, environmental pollution and/or the use of water and nonrenewable resources. Our aim is to encourage scientists to publish their experimental and theoretical research in detail as open access, serving a trustable base of advance for the scientific community.

### Author Benefits

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, AGRIS, RePEc, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Sciences) / CiteScore - Q1  
(Environmental Science (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 33.7 days after submission; acceptance to publication is undertaken in 5.8 days (median values for papers published in this journal in the first half of 2025).
