Water Management and Control,
Faculty of Forestry and Natural
Environment, Aristotle University
of Thessaloniki, Thessaloniki,
Greece

Dr. Konstantia Tolika

Department of Meteorology and
Climatology, School of Geology,
Aristotle University of
Thessaloniki, University Campus,
54124 Thessaloniki, Greece

Deadline for manuscript
submissions:

closed (31 January 2019)

Message from the Guest Editors

Dear Colleagues,

During the last decades, there is a growing interest in climate variability and change by scientific community, due to their economic, social and ecological impacts. Knowledge of spatial and temporal climate distribution is fundamental to several disciplines such as geography, hydrology, forest management, agriculture, ecology and others. Moreover future climate projections is essential for rural development and planning and infrastructure works programming.

Topics of interest include, but are not limited to:

- Regional Climate Models
- Climate Variability
- Climate Change Impacts
- Dynamic and Statistical Downscaling Techniques
- Spatial Mapping of Meteorological Parameters

Mr. Stefanos Stefanidis

Message from the Editor-in-Chief

Climate (ISSN 2225-1154) was established in 2013 to provide an open-access outlet for innovative research, review articles, new direction papers, and short communications relevant to all disciplines related to climate at all scales. The journal encourages papers ranging from climate change detection and attribution and Earth system modeling to ecosystem, hydrologic, and socioeconomic impacts and climate mitigation and adaptation measures. The influence of *Climate* is strong and growing (IF 3.2 in 2024, CiteScore 5.7 in 2024).

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), GeoRef, AGRIS, and other databases.

Journal Rank: JCR - Q2 (Meteorology and Atmospheric Sciences) / CiteScore - Q2 (Atmospheric Science)
