

Special Issue

Air and Water Quality in a Changing World

Message from the Guest Editors

There is a growing interest regarding how our environments will change in the future. While our ability to predict future changes in air and water quality is strengthened by the expansion in monitoring networks and powerful modeling tools, the world we are facing is unfolding from increasingly more dimensions. A more complete understanding of the environmental consequences of climate change and environmental and climate policies will help better protect human health in a changing future. Topics of interest for this Special Issue include, but are not limited to:

- Impacts of future changes in climate and policies on air pollutant emissions from anthropogenic and natural sources, air quality, and nitrogen deposition
- Impacts of future changes in climate and policies on agricultural ecosystems, stream chemistry, and water quality

Guest Editors

Dr. Huizhong Shen

About the Journal

Message from the Editor-in-Chief

Climate (ISSN 2225-1154) was established in 2013 to provide an open-access outlet for innovative research, review articles, new direction papers, and short communications relevant to all disciplines related to climate at all scales. The journal encourages papers ranging from climate change detection and attribution and Earth system modeling to ecosystem, hydrologic, and socioeconomic impacts and climate mitigation and adaptation measures. The influence of *Climate* is strong and growing (IF 3.2 in 2024, CiteScore 5.7 in 2024).

Editor-in-Chief

Dr. Timothy G. F. Kittel
Institute of Arctic and Alpine Research, University of Colorado Boulder,

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), GEOBASE, GeoRef, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Meteorology and Atmospheric Sciences) /
CiteScore - Q2 (Atmospheric Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.8 days after submission; acceptance to publication is undertaken in 3.8 days (median values for papers published in this journal in the second half of 2025).
