

Special Issue

Interactions between Climate Science and Education

Message from the Guest Editors

We invite you to contribute to the Special Issue “Interactions between Climate Science and Education”, which will be published by *Climate*. During the last 10 years we have witnessed alarming climate records and numerous examples of how climate change affects our societies. We need to investigate from a multidisciplinary perspective how it affects the social system and expose evidence of these interactions. While the importance of education as a fundamental tool to increase awareness and preparedness is well recognized and studied, we need to investigate further the impact of climate on education. This issue will focus on studies regarding how to use earth, atmospheric and climate sciences to improve climate change education and how climate change is impacting the educational systems and their communities around the world.

About the Journal

Message from the Editor-in-Chief

Climate (ISSN 2225-1154) was established in 2013 to provide an open-access outlet for innovative research, review articles, new direction papers, and short communications relevant to all disciplines related to climate at all scales. The journal encourages papers ranging from climate change detection and attribution and Earth system modeling to ecosystem, hydrologic, and socioeconomic impacts and climate mitigation and adaptation measures. The influence of *Climate* is strong and growing (IF 3.2 in 2024, CiteScore 5.7 in 2024).

Editor-in-Chief

Dr. Timothy G. F. Kittel

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), GEOBASE, GeoRef, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Meteorology and Atmospheric Sciences) /
CiteScore - Q2 (Atmospheric Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.8 days after submission; acceptance to publication is undertaken in 3.8 days (median values for papers published in this journal in the second half of 2025).
