Special Issue

Climate Change and Food Insecurity

Message from the Guest Editors

This Special Issue is interested in a number of issues: how has climate change had major negative impacts on Food Insecurity either in urban neighborhoods or in rural agricultural territories. Furthermore, what are the ways in which this Food Insecurity created by climate change can be remedied, e.g. through modifications in the manner in which foodstuffs (crops as well as foodstuffs of animal origin) are produced, how social organizations can create conditions in which healthy foodstuffs can be made available to poor communities in cities or in rural territories by involving reasonably well-off populations contributing to lowering the prices of foodstuffs made available to poor populations. Many of the initiatives can be created by groups of citizens and by groups of farmers who wish to contribute to reducing Food Insecurity created by climate change and by other factors such as rising costs of foodstuffs to poor consumers

About the Journal

Message from the Editor-in-Chief

Climate (ISSN 2225-1154) was established in 2013 to provide an open-access outlet for innovative research, review articles, new direction papers, and short communications relevant to all disciplines related to climate at all scales. The journal encourages papers ranging from climate change detection and attribution and Earth system modeling to ecosystem, hydrologic, and socioeconomic impacts and climate mitigation and adaptation measures. The influence of Climate is strong and growing (IF 3.2 in 2024, CiteScore 5.7 in 2024).

Editor-in-Chief

Institute of Arctic and Alpine Research, University of Colorado Boulder, Boulder, CO 80309-0450, USA

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), GeoRef, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Meteorology and Atmospheric Sciences) / CiteScore - Q2 (Atmospheric Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 3.9 days (median values for papers published in this journal in the first half of 2025).
