

Special Issue

New Developments in Endodontic Treatments

Message from the Guest Editors

It is a great pleasure for us to be for this Special Issue entitled: "New Developments in Endodontics Treatments". Endodontic treatments, in each of their phases, from year-to-year show novelties and the introduction of new materials and new techniques. In light of these recent developments, I expect to receive update articles on Radiographic and Radiation-free Diagnosis, NiTi Rotary Instruments, Irrigants and Root Canal Obturation Materials. The diagnosis of the complex 3D anatomy of the canal system has been deeply studied in recent years in vivo and in vitro with 3D acquisition radiographic systems, which have allowed us to establish interesting results from many aspects. In light of this information, I expect to receive Original Research papers and Reviews from clinicians or researchers are accepted, with the aim of updating the knowledge of new materials and new techniques in Endodontics. For more details, please click the below link: <https://www.mdpi.com/si/109406>

Guest Editors

Prof. Dr. Luca Testarelli

Dr. Rodolfo Reda

Dr. Alessio Zanza

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Dr. Athanassios A. Kyrgidis
Department of Oral and Maxillofacial Surgery, School of Dentistry,
Faculty of Health Sciences, Aristotle University, Thessaloniki, Greece

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank:

JCR - Q2 (Medicine, General and Internal) / CiteScore - Q2 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.7 days after submission; acceptance to publication is undertaken in 3.8 days (median values for papers published in this journal in the first half of 2025).
