

Special Issue

Best Practices in Pain Medicine

Message from the Guest Editor

Chronic pain is a pervasive public health emergency that affects over 25% of the population. In the wake of an ever-expanding treatment approach that incorporates both medication-based and minimally invasive procedures, our understanding of chronic pain ailments is progressively growing. This Special Issue will address new advances in the treatment and management of chronic pain conditions. Our aim is to highlight the cutting edge of treatment modalities and diagnostic interpretation.

Guest Editor

Dr. Ivan Urits

Southcoast Health, Southcoast Health Physicians Group Pain Medicine, Wareham, MA, USA; Louisiana State University Shreveport Health, Department of Anesthesiology and Pain Medicine, Shreveport, LA, USA
