Message from the Guest Editors

Dear Colleagues,

The international conference TechnoHeritage 2017 was held in Cadiz, Spain, 21-24 May, 2017. More of 200 communication, with high scientific value, from 23 different countries, were presented. A Special Issue of selected papers from TechnoHeritage 2017 will be published in Coatings. Submissions relating to any of the following topics are welcomed:

- Cleaning products and processes;
- Consolidants;
- Hydrophobic and Superhydrophobic products;
- Self-cleaning and Anti-graffiti agents;
- Biocides and bioreceptivity processes;
- Depollutant products.

Message from the Editor-in-Chief

Now more than ever, research is called for to produce technologies and improve knowledge to solve the major challenges faced by our society. The development of new materials and devices for (without the ambition to be exhaustive) energy, health and food technology, together with the need for establishing processes that reduce the impact on critical resources and the environment, is indeed at the center of most contemporary research. Surface science and engineering play a key role in this regard. Refining surfaces and their modifications provides new materials, architectures and processes with a huge potential to aid most societal challenges. *Coatings* is a well-established, peer-reviewed, online journal that focuses on the dissemination of publications in the field of surface science and engineering. *Coatings* publishes original research articles that report cutting-edge results and review papers on the hottest topics.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed by the Science Citation Index Expanded (Web of Science) and Inspec (IET). To be added in Scopus from Vol. 8 (2018).

Rapid publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 17.2 days after submission; acceptance to publication is undertaken in 4.5 days (median values for papers published in this journal in the second half of 2018).
