Special Issue

The Preparation and Characterization of Carbonand Silicon-Based Materials and Their Applications

Message from the Guest Editors

This scope of this Special Issue will serve as a forum for papers in the following concepts:

- 1. Experimental research, knowledge, and new ideas in carbon fibers (mesophase pitch-based carbon fibers, PAN-based carbon fibers, carbon nanocoils, graphene-based carbon fibers, etc.).
- 2. High-performance new electromagnetic wave absorption and electromagnetic shielding materials with coating design.
- 3. The latest development of energy storage and conversion, understanding the degradation mechanisms, new energy storage mechanisms of ionbatteries, capacitors, etc.
- 4. Development and application of atomic layer deposition (ALD) technology.
- 5. Environmental functional materials applied in corrosion protection, anti-pollution materials, adsorption, , with novel coating design.
- 6. Novel catalyst with novel design and fabrication.

Guest Editors

Dr. Liyong Wang

- 1. School of Energy and Power Engineering, North University of China, Taiyuan 030001, China
- 2. State Key Laboratory of Coal and CBM Co-Mining, North University of China, Taiyuan 030001, China

Prof. Dr. Guizhen Wang

- Key Laboratory of Pico Electron Microscopy of Hainan Province, Center for Advanced Studies in Precision Instruments, Hainan University, Haikou 570228, China
- Center for New Pharmaceutical Development and Testing of Haikou, Center for Advanced Studies in Precision Instruments, Haikou 570228, China
- State Key Laboratory of Marine Resource Utilization in South China Sea, School of Material Science and Engineering, Hainan University, Haikou 570228, China

Deadline for manuscript submissions

30 June 2026

About the Journal

Message from the Editorial Board

Now more than ever, research is asked to deliver knowledge and technologies to solve the major challenges faced by our society. The development of new materials and devices for (without the ambition to be exhaustive) energy, health and food technology, together with the need for establishing processes that reduce the impact on critical resources and the environment, is indeed in the spotlight of most contemporary research. Surface science and engineering play a key role in this regard, with an incredible potential in delivering new and deep scientific understanding and technical solutions essential to solve most of the major societal challenges.

Coatings is a well-established, peerreviewed, online journal dedicated to the vibrant field of surface science and engineering. Coatings publishes original research articles that report cutting-edge results and review papers that make the point on the hottest research topics.

Editors-in-Chief

Prof. Dr. Wei Pan

State Key Laboratory of New Ceramics and Fine Processing, School of Materials Science & Engineering, Tsinghua University, Beijing 100084, China

Dr. Emerson Coy

NanoBioMedical Centre, Adam Mickiewicz University in Poznań, ul. Wszechnicy Piastowskiej 3, 61-614 Poznań, Poland

Author Benefits

Open Access

 free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Physics, Applied) / CiteScore - Q2 (Surfaces, Coatings and Films)
