

Special Issue

Selected Papers from 7th International Conference & Exhibition on Advanced & Nano Materials (ICANM 2019)

Message from the Guest Editor

Engineered materials are an increasingly popular prime research and innovation topic in materials science. The successful development of these materials is expected to revolutionize many applications, e.g., energy and environment, aerospace and defense, biomedical, and automotive, to name a few. This Special Issue call is a timely address to report on many research developments in engineered materials and their applications, presented through the "7th International Conference & Exhibition on Advanced & Nano Materials" (ICANM 2019). Selected papers presented will be invited for peer-review and publication in the Special Issue "Selected Papers from 7th International Conference & Exhibition on Advanced & Nano Materials (ICANM 2019)" in *Coatings*. It is of my privilege to invite you to consider for submission of your work. Keywords:

- Engineered materials
- Composites
- Cellular materials
- Spray coatings
- Manufacturing methods/modeling
- Applications

Note: *Coatings* will offer a discount for the participants of ICANM 2019. Before submission, please contact with the Editorial Office or the Conference office for more details.

About the Journal

Message from the Editorial Board

Now more than ever, research is asked to deliver knowledge and technologies to solve the major challenges faced by our society. The development of new materials and devices for (without the ambition to be exhaustive) energy, health and food technology, together with the need for establishing processes that reduce the impact on critical resources and the environment, is indeed in the spotlight of most contemporary research. Surface science and engineering play a key role in this regard, with an incredible potential in delivering new and deep scientific understanding and technical solutions essential to solve most of the major societal challenges.

Coatings is a well-established, peerreviewed, online journal dedicated to the vibrant field of surface science and engineering. Coatings publishes original research articles that report cutting-edge results and review papers that make the point on the hottest research topics.

Editors-in-Chief

Prof. Dr. Wei Pan

State Key Laboratory of New Ceramics and Fine Processing, School of Materials Science & Engineering, Tsinghua University, Beijing 100084, China

Dr. Emerson Coy

NanoBioMedical Centre, Adam Mickiewicz University in Poznań, ul. Wszechnicy Piastowskiej 3, 61-614 Poznań, Poland
