

## Special Issue

# Surfaces Modification and Analysis for Innovative Biomaterials

### Message from the Guest Editor

The surface of a biomaterial defines its reactivity, driving biological responses. Therefore, the physico-chemical features of biomaterial surfaces require special attention. Indeed, they could be properly tuned in order to elicit specific bioreactions, leading to a safe and predictable biomaterial integration. Contributions to this Special Issue are welcomed on all topics of biomaterial surface modification and analysis. Especially appreciated are papers dealing with new strategies to direct and control surface-driven interactions or works that discuss the main progresses in surface modification and analyses from a critical perspective

### Guest Editor

Prof. Dr. Elvira De Giglio

Department of Chemistry, Università degli Studi di Bari, Bari, Italy

### Deadline for manuscript submissions

closed (30 November 2019)

## About the Journal

### Message from the Editorial Board

Now more than ever, research is asked to deliver knowledge and technologies to solve the major challenges faced by our society. The development of new materials and devices for (without the ambition to be exhaustive) energy, health and food technology, together with the need for establishing processes that reduce the impact on critical resources and the environment, is indeed in the spotlight of most contemporary research. Surface science and engineering play a key role in this regard, with an incredible potential in delivering new and deep scientific understanding and technical solutions essential to solve most of the major societal challenges.

Coatings is a well-established, peerreviewed, online journal dedicated to the vibrant field of surface science and engineering. Coatings publishes original research articles that report cutting-edge results and review papers that make the point on the hottest research topics.

### Editors-in-Chief

Prof. Dr. Wei Pan

State Key Laboratory of New Ceramics and Fine Processing, School of Materials Science & Engineering, Tsinghua University, Beijing 100084, China

Dr. Emerson Coy

NanoBioMedical Centre, Adam Mickiewicz University in Poznań, ul. Wszechnicy Piastowskiej 3, 61-614 Poznań, Poland

---

### Author Benefits

#### Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Physics, Applied) / CiteScore - Q2 (Surfaces, Coatings and Films)
