

Special Issue

Water Treatment Membranes and Their Applications

Message from the Guest Editors

The scope of this Special Issue is coatings for the applications of water treatment, which includes electrospun nanofibrous membranes, microfiltration membranes, ultrafiltration membranes, nanofiltration membranes, waste water treatment, industrial water treatment, desalination, water recycling, and the circular economy. In particular, the topics of interest include but are not limited to:

- Water recycling, a circular economy perspective;
- Electrospun nanofiber coatings for water treatment applications;
- Thin Film composite coatings for water treatment applications;
- Coatings for solvent dehydration;
- Forward osmosis membranes coating.

Guest Editors

Dr. Subramanian Sundarajan

Department of Mechanical Engineering, Center for Nanofibers and Nanotechnology Lab, National University of Singapore, Blk E3 05-12, 2 Engineering Drive 3, Singapore 117581, 65-6516 4693

Prof. Dr. Xinbo Wang

School of Environmental Science and Engineering, Shandong University, Shandong, China

Deadline for manuscript submissions

closed (31 December 2021)

About the Journal

Message from the Editorial Board

Now more than ever, research is asked to deliver knowledge and technologies to solve the major challenges faced by our society. The development of new materials and devices for (without the ambition to be exhaustive) energy, health and food technology, together with the need for establishing processes that reduce the impact on critical resources and the environment, is indeed in the spotlight of most contemporary research. Surface science and engineering play a key role in this regard, with an incredible potential in delivering new and deep scientific understanding and technical solutions essential to solve most of the major societal challenges.

Coatings is a well-established, peerreviewed, online journal dedicated to the vibrant field of surface science and engineering. Coatings publishes original research articles that report cutting-edge results and review papers that make the point on the hottest research topics.

Editors-in-Chief

Prof. Dr. Wei Pan

State Key Laboratory of New Ceramics and Fine Processing, School of Materials Science & Engineering, Tsinghua University, Beijing 100084, China

Dr. Emerson Coy

NanoBioMedical Centre, Adam Mickiewicz University in Poznań, ul. Wszechnicy Piastowskiej 3, 61-614 Poznań, Poland

Author Benefits
