

Special Issue

Advanced Thin Film Materials for Photovoltaic Applications

Message from the Guest Editor

This Special Issue is dedicated to critical reviews and original research articles on "Advanced Thin Film Materials for Photovoltaic Applications". The main aim is to share new knowledge on this subject, by publishing the latest developments in materials and thin film photovoltaics. In particular, the topics of interest include, but are not limited to:

- New materials for PV applications
- CdTe and related materials
- CuInGaSe₂ and related alloys
- High efficiency Dye sensitized solar cells
- Kesterites
- Perovskites
- Organic PV materials and devices
- Hybrid solar cells
- Graded bandgap multi-layer devices
- New device concepts and architectures for next generation of solar cells

Guest Editor

Prof. Dr. I. M. Dharmadasa

Materials and Engineering Research Institute, Sheffield Hallam University, City Campus, Howard Street, Sheffield S1 1WB, UK

About the Journal

Message from the Editorial Board

Now more than ever, research is asked to deliver knowledge and technologies to solve the major challenges faced by our society. The development of new materials and devices for (without the ambition to be exhaustive) energy, health and food technology, together with the need for establishing processes that reduce the impact on critical resources and the environment, is indeed in the spotlight of most contemporary research. Surface science and engineering play a key role in this regard, with an incredible potential in delivering new and deep scientific understanding and technical solutions essential to solve most of the major societal challenges.

Coatings is a well-established, peerreviewed, online journal dedicated to the vibrant field of surface science and engineering. Coatings publishes original research articles that report cutting-edge results and review papers that make the point on the hottest research topics.

Editors-in-Chief

Prof. Dr. Wei Pan

State Key Laboratory of New Ceramics and Fine Processing, School of Materials Science & Engineering, Tsinghua University, Beijing 100084, China

Dr. Emerson Coy

NanoBioMedical Centre, Adam Mickiewicz University in Poznań, ul. Wszechnicy Piastowskiej 3, 61-614 Poznań, Poland

Author Benefits

Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.
