

Special Issue

Advanced Ceramic Coatings and Interfaces

Message from the Guest Editors

We welcome contributions to the Special Issue on Advanced Ceramic Coatings and Interfaces for the journal, *Coatings* (ISSN 2079-6412). Contributions should cover general aspects of this topic, for example, coatings production concepts and latest methods of application resulting in component life extension. Modelling of coating failure mechanisms, efficacy of protection and coatings and coatings' integrity; integrity would also be appreciated, as well as the evaluation of mechanical and thermal properties of coating materials. In summary, we envisage the papers will cover both practical activity and theoretical modelling. All manuscripts will be peer reviewed and those accepted will be published immediately online in an ongoing fashion in this Special Issue.

Guest Editors

Prof. Dr. Sylvester Abanteriba

School of Engineering, RMIT University, Melbourne, VIC 3001, Australia

Dr. Subir Ghosh

About the Journal

Message from the Editorial Board

Now more than ever, research is asked to deliver knowledge and technologies to solve the major challenges faced by our society. The development of new materials and devices for (without the ambition to be exhaustive) energy, health and food technology, together with the need for establishing processes that reduce the impact on critical resources and the environment, is indeed in the spotlight of most contemporary research. Surface science and engineering play a key role in this regard, with an incredible potential in delivering new and deep scientific understanding and technical solutions essential to solve most of the major societal challenges.

Coatings is a well-established, peerreviewed, online journal dedicated to the vibrant field of surface science and engineering. Coatings publishes original research articles that report cutting-edge results and review papers that make the point on the hottest research topics.

Editors-in-Chief

Prof. Dr. Wei Pan

State Key Laboratory of New Ceramics and Fine Processing, School of Materials Science & Engineering, Tsinghua University, Beijing 100084, China

Dr. Emerson Coy

NanoBioMedical Centre, Adam Mickiewicz University in Poznań, ul. Wszechnicy Piastowskiej 3, 61-614 Poznań, Poland
