

Special Issue

Ferroelectric Thin Films and Devices

Message from the Guest Editor

We invite researchers to submit original innovative research works to this Special Issue on “Ferroelectric Thin Films and Devices”. The aim of this Special Issue is to highlight the most recent advancements in the science and technology of ferroelectric materials, covering a broad range of fields from theory and modeling, via processing and characterization thereof, to the development of new applications and devices, through a combination of original research papers and review articles from leading groups around the world. In particular, the topics of interest include but are not limited to:

- Ferroelectric film growth and characterization;
- Novel ferroelectric/piezoelectric/multiferroic thin films;
- Novel materials for ferroelectric memories and capacitors;
- Tunable ferroelectric devices for high frequency applications;
- Energy harvesting, piezoelectric, IR, and terahertz sensors;
- Bulk acoustic devices (BAW & FBAR).

Guest Editor

Prof. Dr. Andrey Tumarkin

Department of Physical Electronics and Technology, St. Petersburg State Electrotechnical University (LETI), 5 prof. Popov Str., 197376 St. Petersburg, Russia

Deadline for manuscript submissions

closed (31 January 2022)

About the Journal

Message from the Editorial Board

Now more than ever, research is asked to deliver knowledge and technologies to solve the major challenges faced by our society. The development of new materials and devices for (without the ambition to be exhaustive) energy, health and food technology, together with the need for establishing processes that reduce the impact on critical resources and the environment, is indeed in the spotlight of most contemporary research. Surface science and engineering play a key role in this regard, with an incredible potential in delivering new and deep scientific understanding and technical solutions essential to solve most of the major societal challenges.

Coatings is a well-established, peerreviewed, online journal dedicated to the vibrant field of surface science and engineering. Coatings publishes original research articles that report cutting-edge results and review papers that make the point on the hottest research topics.

Editors-in-Chief

Prof. Dr. Wei Pan

State Key Laboratory of New Ceramics and Fine Processing, School of Materials Science & Engineering, Tsinghua University, Beijing 100084, China

Dr. Emerson Coy

NanoBioMedical Centre, Adam Mickiewicz University in Poznań, ul. Wszechnicy Piastowskiej 3, 61-614 Poznań, Poland
