

Special Issue

Intelligent Tribological and Functional Coatings

Message from the Guest Editors

The Special Issue "Intelligent Tribological and Functional Coatings" will provide a platform for researchers, practitioners, and academics to present and discuss ideas, challenges, and potential solutions on established or emerging topics related to research and practice in the field of engineering tribology toward achieving high speed, high precision, energy conservation, sustainable use, and advanced design in industrial tribology, in addition to issues related to application.

1. Basic friction and wear;
2. Lubricants and lubrication;
3. Contact mechanics and adhesion;
4. Surface engineering and coating;
5. Material analysis and examination;
6. Tribology in machine elements;
7. Tribochemistry and tribocorrosion;
8. Biotribology;
9. Green tribology and sustainability;
10. Micro- and nanotribology;
11. Manufacturing technology;
12. Tribotronics and active tribology;
13. Dynamic and vibration engineering;
14. Computer-aided engineering;
15. Measurement and signal processing technology;
16. Power engineering technology;
17. Fire science and technology;
18. System design engineering;
19. Other engineering technologies

Guest Editors

Dr. Shih-Chen Shi
Prof. Dr. Yunn-Lin Hwang
Prof. Jason Hsiao Chun Yang

About the Journal

Message from the Editorial Board

Now more than ever, research is asked to deliver knowledge and technologies to solve the major challenges faced by our society. The development of new materials and devices for (without the ambition to be exhaustive) energy, health and food technology, together with the need for establishing processes that reduce the impact on critical resources and the environment, is indeed in the spotlight of most contemporary research. Surface science and engineering play a key role in this regard, with an incredible potential in delivering new and deep scientific understanding and technical solutions essential to solve most of the major societal challenges.

Coatings is a well-established, peerreviewed, online journal dedicated to the vibrant field of surface science and engineering. Coatings publishes original research articles that report cutting-edge results and review papers that make the point on the hottest research topics.

Editors-in-Chief

Prof. Dr. Wei Pan

State Key Laboratory of New Ceramics and Fine Processing, School of Materials Science & Engineering, Tsinghua University, Beijing 100084, China

Dr. Emerson Coy

NanoBioMedical Centre, Adam Mickiewicz University in Poznań, ul. Wszechnicy Piastowskiej 3, 61-614 Poznań, Poland

Author Benefits

Open Access

– free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Physics, Applied) / CiteScore - Q2 (Surfaces, Coatings and Films)
