

Special Issue

Laser Surface Modification of Metallic Materials

Message from the Guest Editors

This Special Issue is mainly focused on research lines in the field of laser surface texturing on metallic materials. In this special edition, high interest is maintained on research articles dedicated to improving the performance of texturing processes and their use in specific applications. The improvement of surface conditions and the characterization procedures of the modified layer are very interesting aspects for publication in this issue. **Keywords:**

- laser texturing
- surface modification
- wetting behavior
- surface finish
- surface characterization
- wear resistance treatment
- corrosion resistance surface treatment
- tribological applications.

About the Journal

Message from the Editorial Board

Now more than ever, research is asked to deliver knowledge and technologies to solve the major challenges faced by our society. The development of new materials and devices for (without the ambition to be exhaustive) energy, health and food technology, together with the need for establishing processes that reduce the impact on critical resources and the environment, is indeed in the spotlight of most contemporary research. Surface science and engineering play a key role in this regard, with an incredible potential in delivering new and deep scientific understanding and technical solutions essential to solve most of the major societal challenges.

Coatings is a well-established, peerreviewed, online journal dedicated to the vibrant field of surface science and engineering. Coatings publishes original research articles that report cutting-edge results and review papers that make the point on the hottest research topics.

Editors-in-Chief

Prof. Dr. Wei Pan

State Key Laboratory of New Ceramics and Fine Processing, School of Materials Science & Engineering, Tsinghua University, Beijing 100084, China

Dr. Emerson Coy

NanoBioMedical Centre, Adam Mickiewicz University in Poznań, ul. Wszechnicy Piastowskiej 3, 61-614 Poznań, Poland
