

Special Issue

Thin Films and Interfaces for Bioelectronics

Message from the Guest Editor

This Special Issue is accordingly aimed at collecting research papers, reviews, and perspective articles describing recent advances in the field of bioelectronics based on organic and hybrid organic–inorganic films and interfaces, and fabrication using conventional and enhanced methods. In particular, the topics of interest include, but are not limited to:

- Manufacturing/characterization of (flexible) bioelectronic devices such as electrolyte-gated, ion sensitive and electrochemical transistors, screen-printed electrodes;
- Biosensing based on different biorecognition elements and electrochemical/electrical transduction strategies;
- Bioelectronic interfaces;
- Deposition techniques of organic films and/or interfaces;
- Drug delivery;
- Bioelectronics textile and wearable biosensors;
- Materials and interfaces for bioelectronics;
- Thin films for cellular and/or tissue interfacing.

Guest Editor

Dr. Pasquale D'Angelo

Institute of Materials for Electronics and Magnetism, IMEM-CNR, Parco Area delle Scienze 37/A, 43124 Parma, Italy

Deadline for manuscript submissions

closed (20 July 2021)

About the Journal

Message from the Editorial Board

Now more than ever, research is asked to deliver knowledge and technologies to solve the major challenges faced by our society. The development of new materials and devices for (without the ambition to be exhaustive) energy, health and food technology, together with the need for establishing processes that reduce the impact on critical resources and the environment, is indeed in the spotlight of most contemporary research. Surface science and engineering play a key role in this regard, with an incredible potential in delivering new and deep scientific understanding and technical solutions essential to solve most of the major societal challenges.

Coatings is a well-established, peerreviewed, online journal dedicated to the vibrant field of surface science and engineering. Coatings publishes original research articles that report cutting-edge results and review papers that make the point on the hottest research topics.

Editors-in-Chief

Prof. Dr. Wei Pan

State Key Laboratory of New Ceramics and Fine Processing, School of Materials Science & Engineering, Tsinghua University, Beijing 100084, China

Dr. Emerson Coy

NanoBioMedical Centre, Adam Mickiewicz University in Poznań, ul. Wszechnicy Piastowskiej 3, 61-614 Poznań, Poland
