

## Selected Papers from XVI Polish–Ukrainian Symposium on Theoretical and Experimental Studies of Interfacial Phenomena and their Technological Applications

Guest Editors:

**Dr. Eugene V. Aksenenko**

A.V. Dumanski Institute of Colloid Chemistry and Chemistry of Water, National Academy of Sciences of Ukraine, Kyiv (Kiev), Ukraine

**Prof. Dr. Aleksandra Szcześ**

Department of Physical Chemistry-Interfacial Phenomena, Faculty of Chemistry, Maria Curie-Skłodowska University, M.C.-Skłodowska Sq. 3/114, 20-031 Lublin, Poland

**Dr. Barbara Charmas**

Faculty of Chemistry, Maria Curie-Skłodowska University, Lublin, Poland

Deadline for manuscript submissions:

**closed (30 December 2018)**

### Message from the Guest Editors

Dear Colleagues,

Successive Polish–Ukrainian Symposia are of great tradition and fame as an important scientific event, being the result of extensive and many years' worth of collaboration between scientists from various research centers in Ukraine and Poland. The main aims of these symposia are the development of closer ties between Polish and Ukrainian research groups working in the field of theoretical and experimental studies of surface phenomena and their applications in practice.

The main topics of the symposia are: Sorption from gaseous and liquid phases, gas chromatography, ion exchange, heterogeneous catalysis, application of quantum mechanical methods for the study of the surface chemistry of dispersed materials, preparation of new adsorbents, ion exchangers and catalysts, and their application in various techniques, medicine and research practice.

The information of the event is posted on the Symposium web-site:
