## **Special Issue**

# State of the Art of Colloid and Interface Science in the Iberian Peninsula

## Message from the Guest Editor

The Iberian Peninsula has a rich tradition of scientific contributions in this field, and this Special Issue will serve as a comprehensive overview of the latest developments and innovative research from this region. This Special Issue will highlight the latest research and advances in the field of colloids and interfaces within the Iberian Peninsula, but contributions from researchers outside the Iberian Peninsula are also welcome. This Special Issue will cover a wide range of topics including. but not limited to, the synthesis and characterization of colloidal systems, novel applications of colloids in medicine, cosmetics and food science, interfacial phenomena, and advances in nanotechnology and materials science. Through original research articles, reviews and case studies, this Special Issue will provide valuable insights into the state-of-the-art methods and technologies being developed by Iberian researchers. This Special Issue will foster collaboration, inspire future research, and increase the visibility of the Iberian scientific community in the global arena.

## **About the Journal**

## Message from the Editor-in-Chief

We would like to introduce you to an emerging and rapidly-developing international open-access journal, *Colloids and Interfaces*, covering all aspects of colloid and interface science. This journal aims to efficiently publish peer-reviewed articles over the internet free of charge to the worldwide community. Original as well as review papers are encouraged. We will also publish Special Issues as proceedings of scientific conferences and workshops as well as those dedicated to particular contemporary themes. On behalf of our distinguished editorial board, we welcome your contributions.

## Editor-in-Chief

Dr. Reinhard Miller

Institute for Condensed Matter Physics, Technical University Darmstadt, D-64289 Darmstadt, Germany

## **Author Benefits**

## **High Visibility:**

indexed within Scopus, ESCI (Web of Science), CAPlus / SciFinder, Inspec, and other databases.

### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.9 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).

## **Recognition of Reviewers:**

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
