

## Special Issue

# Selected Papers from Bubble & Drop 2017

### Message from the Guest Editors

The Bubble and Drop workshop (<http://www.bd2017-lyon.fr/>) is a scientific event that gathers scientists from academia and industry, working in the world of various types of interfaces, emulsion, and foams. The conference provides a podium for presenting scientific posters and oral contributions, dealing with fundamental research and industrial applications, all dealing somehow with drops and bubbles. The meeting in 2017 is organized in Lyon and is the 7th in the series. Participants of Bubble and Drop 2017 are cordially invited to contribute original research papers to this Special Issue of *Colloids and Interfaces*.

## About the Journal

### Message from the Editor-in-Chief

We would like to introduce you to an emerging and rapidly-developing international open-access journal, *Colloids and Interfaces*, covering all aspects of colloid and interface science. This journal aims to efficiently publish peer-reviewed articles over the internet free of charge to the worldwide community. Original as well as review papers are encouraged. We will also publish Special Issues as proceedings of scientific conferences and workshops as well as those dedicated to particular contemporary themes. On behalf of our distinguished editorial board, we welcome your contributions.

### Author Benefits

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), CAPus / SciFinder, Inspec, and other databases.

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.9 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).

#### Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
