

Special Issue

State of the Art of Colloid and Interface Science in Asia

Message from the Guest Editors

This Special Issue will serve as a comprehensive overview of the latest advance and innovative research in the field of colloids and interfaces from Asia, but contributions from researchers outside Asia are also welcome. This Special Issue will cover a wide range of topics including, but not limited to, experimental and theoretical aspects of interfacial phenomena, the fabrication and characterization of colloidal systems, properties of solutions of surface-active molecules, self-assembling and aggregation in solution and at interfaces, fluid dynamics, applications of colloids and interfacial aspects in biology, medicine, cosmetics, food and material science, and new emerging directions in colloid and interface science. Through original research articles, reviews and short communications, this Special Issue will provide significant insights into the state-of-the-art methods and technologies being developed by Asia researchers.

Guest Editors

Prof. Dr. To Ngai

Department of Chemistry, The Chinese University of Hong Kong, Hong Kong 999077, China

Dr. Xiuying Qiao

School of Materials Science and Engineering, Shanghai Jiao Tong University, Shanghai 200240, China

Deadline for manuscript submissions

15 November 2025

About the Journal

Message from the Editor-in-Chief

We would like to introduce you to an emerging and rapidly-developing international open-access journal, *Colloids and Interfaces*, covering all aspects of colloid and interface science. This journal aims to efficiently publish peer-reviewed articles over the internet free of charge to the worldwide community. Original as well as review papers are encouraged. We will also publish Special Issues as proceedings of scientific conferences and workshops as well as those dedicated to particular contemporary themes. On behalf of our distinguished editorial board, we welcome your contributions.

Editor-in-Chief

Dr. Reinhard Miller
Institute for Condensed Matter Physics, Technical University
Darmstadt, D-64289 Darmstadt, Germany

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), CAPus / SciFinder, Inspec, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.9 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
