## Feature Papers in Compounds

### Message from the Guest Editor

As Editor-in-Chief of *Compounds*, I am delighted to present this Special Issue of “Feature Papers in Compounds” in the newly launched *Compounds* journal. *Compounds* is a new, international, open access and peer-reviewed journal that publishes original research and scholarship, contributing to the expanding field of compounds research. *Compounds* intends to inform and to stimulate interest and debate in advancing the scientific basis of the discipline. This Special Issue of *Compounds* will comprise a collection of high-quality papers published free of charge in open access form by Editorial Board Members and authors invited by the Editorial Office and the Editor-in-Chief. Both original research articles and comprehensive review papers are welcome. Prof. Dr. Juan Mejuto

## About the Journal

### Message from the Editor-in-Chief

As a new international and multidisciplinary peer-reviewed open access journal for multidisciplinary chemistry focused on chemical compounds, Compounds (ISSN 2673-6918) has been founded to publish reviews, original research papers, communications, case reports, letters, and short notes. Our goal is for Compounds to become a journal where the scientific community can present their results under open access. Our core objective is to provide high-quality research contributions in a wide range of chemistry areas. Manuscripts dealing with chemical compounds; the relationship between structure, properties, and/or functions of all kinds of compounds; as well as chemical theory and applications are welcome.
