Message from the Guest Editor

Dear Colleagues,

The Special Issue entitled: “Opportunities and Challenges for Combustion Modelling and Physics.” The Special Issue will cover all aspects of combustion science and technology, including experimental, theoretical, and computational studies on combustion fundamentals. The topics of interest include, but are not limited to: Chemical kinetics; Laminar and turbulent flames; Spray, droplets, and supercritical combustion; Coal and biomass; Flares, detonations, explosions, and supersonic combustion; Energy systems; Diagnostics; Soot.

I am convinced that your contribution to this Special Issue will increase its value.

an Open Access Journal by MDPI

40476 Duesseldorf, Germany

Message from the Editor-in-Chief

You are invited to submit the results of your research for consideration and publication in *Computation*, an international open access journal, which is published monthly online by MDPI.

The editorial board and staff of *Computation* are dedicated to establishing a benchmark journal for the world scientific and engineering communities for original research articles, reviews, conference proceedings (i.e., peer reviewed full articles), and communications, in the cutting-edge areas of computational biology, computational chemistry, and computation in engineering.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), CAPlus / SciFinder, Inspec, dblp, and other databases.

Journal Rank: JCR - Q2 (*Mathematics, Interdisciplinary Applications*) / CiteScore - Q2 (*Applied Mathematics*)
