

Special Issue

New Advances in Density Functional Theory and Its Application

Message from the Guest Editors

This Special Issue will consist of selected excellent papers from the “18th International Conference on Density-Functional Theory and its Applications”, which will be held in Alicante (Spain) from 22 to 26 July 2019. This worldwide used theory constitutes one of the most applied quantum theories developed so far and has outstanding applications in many scientific fields. This Special Issue is dedicated to demonstrating how recent advances can pave the way towards cutting-edge applications for a better and more sustainable future. We invite contributors to this edition to submit and present papers in a variety of fields, from concepts and developments to applications. Papers may report on original research, discuss methodological aspects, present new applications, and review the current state-of-the-art, or offer perspectives or future prospects for the field. The papers will undergo a strict peer-review process and, when accepted, be published to widely disseminate their contents and results. Prof. Drs. Juan-Carlos Sancho-García, Emilio San-Fabián, José-Manuel García de la Vega, and Karlheinz Schwarz

Guest Editors

About the Journal

Message from the Editor-in-Chief

You are invited to submit the results of your research for consideration and publication in *Computation*, an international open access journal, which is published monthly online by MDPI.

The editorial board and staff of *Computation* are dedicated to establishing a benchmark journal for the world scientific and engineering communities for original research articles, reviews, conference proceedings (i.e., peer reviewed full articles), and communications, in the cutting-edge areas of computational biology, computational chemistry, computational social science and computational engineering.

Editor-in-Chief

Prof. Dr. Ali Cemal Benim

Center of Flow Simulation (CFS), Department of Mechanical and Process Engineering, Duesseldorf University of Applied Sciences, D-40476 Duesseldorf, Germany

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), CAPus / SciFinder, Inspec, dblp, and other databases.

Journal Rank:

JCR - Q2 (Mathematics, Interdisciplinary Applications) /
CiteScore - Q1 (Applied Mathematics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.7 days after submission; acceptance to publication is undertaken in 5.6 days (median values for papers published in this journal in the first half of 2025).
