

Special Issue

Machine Learning for Computational Science and Engineering

Message from the Guest Editors

Machine learning (ML) is an enabling technology that has an impact on many branches of science and engineering. ML has recently received significant attention from both academic and industrial communities, due to the development of improved algorithms, open-source software frameworks, and the interest in connection with a number of diverse application domains. This Special Issue concerns the development and application of ML algorithms and methods in relation to three broad areas:

- Computational science and engineering;
- Pattern recognition; and
- Computational design.

In addition to original research papers, review papers on the state-of-the-art and future perspectives are also invited.

Guest Editors

Prof. Dr. Dimitris Drikakis

Institute for Advanced Modeling and Simulation, University of Nicosia,
CY-2417 Nicosia, Cyprus

Dr. Michael Frank

Department of Mechanical and Aerospace Engineering, University of
Strathclyde, 75 Montrose Street, Glasgow G1 1XJ, UK

Deadline for manuscript submissions

closed (31 January 2020)

About the Journal

Message from the Editor-in-Chief

You are invited to submit the results of your research for consideration and publication in *Computation*, an international open access journal, which is published monthly online by MDPI.

The editorial board and staff of *Computation* are dedicated to establishing a benchmark journal for the world scientific and engineering communities for original research articles, reviews, conference proceedings (i.e., peer reviewed full articles), and communications, in the cutting-edge areas of computational biology, computational chemistry, computational social science and computational engineering.

Editor-in-Chief

Prof. Dr. Ali Cemal Benim

Center of Flow Simulation (CFS), Department of Mechanical and Process Engineering, Duesseldorf University of Applied Sciences, D-40476 Duesseldorf, Germany

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), CAPlus / SciFinder, Inspec, dblp, and other databases.

Journal Rank:

JCR - Q2 (Mathematics, Interdisciplinary Applications) /
CiteScore - Q1 (Applied Mathematics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.7 days after submission; acceptance to publication is undertaken in 5.6 days (median values for papers published in this journal in the first half of 2025).
