

Special Issue

New Trends in Computational Biology and Biomedical Engineering

Message from the Guest Editors

This Special Issue cooperates with the IWBBIO 2020 conference (<https://iwbbio.ugr.es/index.php>). Open Call-For-Papers We will solicit papers from the IWBBIO 2020 conference, as well as from researchers working in the field of emerging techniques for bioinformatics and biomedical engineering. The conference paper should be cited and noted on the first page of the paper; authors are asked to disclose that it is a conference paper in their cover letter and include a statement on what has been changed compared to the original conference paper. Each submission to this issue should contain at least 60% new material, and the common part should not simply be a copy and paste of the conference paper. Each paper (including the papers from the IWBBIO 2020 conference) will undergo our standard peer-review procedure. Accepted papers will be published in open access format in *Computation* and collected together on this Special Issue website. Prof. Krejcar Ondřej

About the Journal

Message from the Editor-in-Chief

You are invited to submit the results of your research for consideration and publication in *Computation*, an international open access journal, which is published monthly online by MDPI.

The editorial board and staff of *Computation* are dedicated to establishing a benchmark journal for the world scientific and engineering communities for original research articles, reviews, conference proceedings (i.e., peer reviewed full articles), and communications, in the cutting-edge areas of computational biology, computational chemistry, and computation in engineering.

Editor-in-Chief

Prof. Dr. Ali Cemal Benim

Center of Flow Simulation (CFS), Department of Mechanical and Process Engineering, Duesseldorf University of Applied Sciences, D-40476 Duesseldorf, Germany

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), CAPus / SciFinder, Inspec, dblp, and other databases.

Journal Rank:

JCR - Q2 (Mathematics, Interdisciplinary Applications) /
CiteScore - Q2 (Applied Mathematics)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.6 days after submission; acceptance to publication is undertaken in 4.2 days (median values for papers published in this journal in the second half of 2024).
