

Special Issue

Machine Learning: Techniques, Industry Applications, Code Sharing, and Future Trends

Message from the Guest Editors

This Special Issue aims to highlight the importance of transparency, reproducibility, and openness in machine learning research by encouraging solutions accompanied by publicly shared codes. The goal is to promote best practices in sharing codes and datasets, making it easier for the research community to reproduce and build upon existing works. Potential authors are encouraged to submit new concepts according to the submission guidelines. We also encourage researchers to share their codes in public repositories and implement them in open platforms like Kaggle, Code Ocean, etc. Editors and reviewers will aim to improve the presented concepts by providing effective feedback to researchers. This Special Issue can potentially bring about technological advances and an improved understanding of concepts among everyone involved, including readers.

Guest Editors

Dr. Hussain Mohammed Dipu Kabir

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article, a comprehensive review or a software paper for consideration and publication in Computers (ISSN 2073-431X). Computers is an international, peer-reviewed, open access journal which provides an advanced forum for computer sciences. Computers is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Paolo Bellavista

Department of Computer Science & Engineering (DISI), University of
Bologna, 40136 Bologna, Italy

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), dblp, Inspec, Ei Compendex, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Interdisciplinary Applications) / CiteScore - Q1 (Computer Science (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.3 days after submission; acceptance to publication is undertaken in 3.8 days (median values for papers published in this journal in the first half of 2025).
