Distributed Computing Paradigms for the Internet of Things: Exploring Cloud, Edge, and Fog Solutions

Message from the Guest Editor

This Special Issue on "Distributed Computing Paradigms for the Internet of Things: Exploring Cloud, Edge, and Fog Solutions" invites high-quality research articles, reviews, and case studies that investigate the roles, challenges, and innovations related to distributed computing frameworks tailored for IoT applications. We welcome submissions that address theoretical, experimental, and practical aspects of these paradigms and their synergistic integration to support the complex requirements of IoT systems.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article, a comprehensive review or a software paper for consideration and publication in Computers (ISSN 2073-431X). Computers is an international, peer-reviewed, open access journal which provides an advanced forum for computer sciences. Computers is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.
