

## Special Issue

# Innovative Research in Human-Computer Interactions

### Message from the Guest Editor

This special issue aims to curate innovative contributions that advance the frontiers of research at the intersection of Human-Computer Interaction (HCI) and other emerging digital technologies. The resurgence coupled with the pervasive nature of research in these research domains is driven by the need to develop adaptive and context-aware interfaces that collaboratively interact with users' cognitive, physical and emotional states across diverse environments, as well as inclusive and intuitive systems that are ethical and enhance user experience and capabilities. Research in these directions has attracted massive interests from stakeholders in the academia, product designers and industry practitioners. There is a growing need for credible venues to disseminate evidence-based and impactful outputs to wider audience. This special issue bridges this gap by offering a platform that would cover recent and relevant advancements in the analyses, design, development, and evaluation of human-centric intelligent systems and their diverse applications to our everyday lives.

### Guest Editor

Dr. Makuochi Samuel Nkwo

School of Computing and Mathematical Science, Faculty of Engineering and Science, University of Greenwich, London SE10 9LS, UK

### Deadline for manuscript submissions

30 November 2025

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article, a comprehensive review or a software paper for consideration and publication in Computers (ISSN 2073-431X). Computers is an international, peer-reviewed, open access journal which provides an advanced forum for computer sciences. Computers is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Paolo Bellavista

Department of Computer Science & Engineering (DISI), University of  
Bologna, 40136 Bologna, Italy

### Author Benefits

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), dblp, Inspec, Ei Compendex, and other databases.

#### Journal Rank:

JCR - Q2 (Computer Science, Interdisciplinary Applications) / CiteScore - Q1 (Computer Science (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.3 days after submission; acceptance to publication is undertaken in 3.8 days (median values for papers published in this journal in the first half of 2025).
