

## Special Issue

# Innovative Computer Vision Solutions for Medical Image Analysis

### Message from the Guest Editor

Medical image analysis encompasses a range of computational methodologies that leverage AI-driven computer vision techniques to extract clinically meaningful information from diagnostic images, functioning as a decision-support tool throughout the entire healthcare continuum. However, the exponential growth of multimodal imaging data—from high-resolution scans (e.g., CT and MRI) to dynamic sequences (e.g., ultrasonic imaging), and functional imaging (e.g., positron emission tomography)—presents unprecedented computational and analytical challenges for both researchers and clinicians. Thus, data processing, analysis, and interpretation represent some of the most critical yet formidable challenges in medical image analysis. This Special Issue aims to enhance the generalizability and interpretability of AI-assisted diagnostic systems by developing novel computer vision algorithms tailored to multimodal medical imaging.

### Guest Editor

Dr. Fengjun Zhao

School of Information Sciences and Technology, Northwest University, Xi'an 710069, China

### Deadline for manuscript submissions

31 October 2025

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article, a comprehensive review or a software paper for consideration and publication in Computers (ISSN 2073-431X). Computers is an international, peer-reviewed, open access journal which provides an advanced forum for computer sciences. Computers is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), dblp, Inspec, Ei Compendex, and other databases.

#### Journal Rank:

JCR - Q2 (Computer Science, Interdisciplinary Applications) / CiteScore - Q1 (Computer Science (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.3 days after submission; acceptance to publication is undertaken in 3.8 days (median values for papers published in this journal in the first half of 2025).
