Extended Reality (XR) Applications in Education 2023

Message from the Guest Editors

The spectrum of Augmented and Virtual Reality (AR/VR) technologies, often subsumed under the umbrella 'eXtended Reality', has given rise to many applications in education, slowly becoming a routine part of the contemporary educators' toolbox. New EdTech communities are rapidly responding to teaching and learning challenges rooted in elevating students' learning potential. eXtended Reality technology is opening a new chapter of thinking and informing how society responds to a fast-paced infotainment culture. This Special Issue aims to highlight authors who are currently contributing to the new generation of VR/AR/XR in education. As a community of educators, vocational trainers, and educational technologists, we are fortunate to be living and working at a time when we can facilitate students learning through a more immersive and augmented learning 'experience'. A time when multi-modal digital environments have the power to increase access and learning potential 'for all'...

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article, a comprehensive review or a software paper for consideration and publication in Computers (ISSN 2073-431X). Computers is an international, peer-reviewed, open access journal which provides an advanced forum for computer sciences. Computers is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Paolo Bellavista

Department of Computer Science & Engineering (DISI), University of
Bologna, 40136 Bologna, Italy

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), dblp, Inspec, Ei Compendex, and other databases.

Journal Rank:

JCR - Q2 (Computer Science, Interdisciplinary Applications) / CiteScore - Q1 (Computer Science (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.3 days after submission; acceptance to publication is undertaken in 3.8 days (median values for papers published in this journal in the first half of 2025).
