

Special Issue

Feature Papers from Condensed Matter Editorial Board Members

Message from the Guest Editor

Now that *Condensed Matter* has officially been accepted for Scopus indexing, I am pleased to announce a new *Condensed Matter* Special Issue that is quite different from our typical ones, and which will mainly focus on either selected areas of research or special techniques. Being creative in many ways, with this Special Issue, *Condensed Matter* is compiling a collection of papers submitted exclusively by its Editorial Board Members (EBMs) covering different areas of condensed matter research and its related methods and theory. The main idea behind this Special Issue is to turn the tables and allow our readers to be the judges of our board members.

About the Journal

Message from the Editor-in-Chief

Welcome to *Condensed Matter* (ISSN 2410-3896)! It gives me great pleasure to invite you to publish in the journal. We are looking to build a collection of high quality research articles, supported by a community from across the field of condensed matter physics. In this task, I will be assisted by a highly qualified editorial board. We accept papers on basic research as well as applications, and experimental or theoretical work. Currently the journal is indexed by ESCI (Web of Science) and hope you can consider *Condensed Matter* as an exceptional home for your manuscript.

Editor-in-Chief

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, CAPIus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.8 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the second half of 2025).
