

## Special Issue

# New Advances in Condensed Matter Physics, 2nd Edition

### Message from the Guest Editor

Condensed matter physics is a discipline in physics that has a specific goal of understanding the structure and properties of all kinds of solids and liquids. It is a very broad and active area of research in physical sciences, and new ideas and novel materials are frequently being created. This Special Issue aims to provide an exchange platform for the latest achievements in the rapidly developing field of condensed matter physics.

## About the Journal

### Message from the Editor-in-Chief

Welcome to *Condensed Matter* (ISSN 2410-3896)! It gives me great pleasure to invite you to publish in the journal. We are looking to build a collection of high quality research articles, supported by a community from across the field of condensed matter physics. In this task, I will be assisted by a highly qualified editorial board. We accept papers on basic research as well as applications, and experimental or theoretical work. Currently the journal is indexed by ESCI (Web of Science) and hope you can consider *Condensed Matter* as an exceptional home for your manuscript.

---

### Editor-in-Chief

Prof. Dr. Antonio Bianconi  
Rome International Center for Materials Science Superstripes  
(RICMASS), Via dei Sabelli 119A, 00185 Rome, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, CAPIus / SciFinder, and other databases.

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.8 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the second half of 2025).
