

Special Issue

Social Sciences in Marine Ecology Conservation

Message from the Guest Editors

We hope to showcase research that explores the role of social science in promoting marine conservation, fostering public engagement, and driving policy change. Accordingly, we invite submissions on all topics related to the intersection of social sciences and marine ecology conservation. Relevant themes include, but are not limited to, the following:

- Marine ecology conservation;
- Biodiversity conservation;
- Marine policy;
- Marine education;
- Environmental education;
- Human behavior change;
- Marine protected area;
- OECM;
- Nature positive;
- Big data analysis;
- Wildlife trade.

Guest Editors

Dr. Chia-Hsuan Hsu

Biodiversity Division, National Institute for Environmental Studies,
Tsukuba 305-8506, Japan

Dr. Jiefeng Kang

Graduate School of Global Environmental Studies, Sophia University,
Tokyo 102-8554, Japan

Deadline for manuscript submissions

31 December 2025

About the Journal

Message from the Editor-in-Chief

Conservation provides an advanced forum for conservation studies, including biodiversity and environment conservation, resource recycling, conservation and sustainable management, conservation planning and governance, conservation ethics and ecology, creative and multidisciplinary solutions for conservation and restoration, as well as heritage conservation and restoration. In addition, we welcome submissions highlighting transdisciplinary advances in the science and practice of conservation, with application in management and policy decisions. We hope that the advantages of open access, high-quality standards, and rapid publication will encourage scientists and practitioners to choose *Conservation* as a venue to disseminate their research.

Editor-in-Chief

Dr. Antoni Margalida
