Message from the Guest Editors

Cannabinoids have recently emerged as a new trend in cosmetic product formulations, and this has led to a boom in cosmetics that include them in their composition. Cannabinoids can be obtained from the Cannabis sativa L. plant (phytocannabinoids) using different procedures or they can be produced synthetically in laboratories (synthetic cannabinoids).

The current legal situation related to the obtaining and production of raw materials as well as the elaboration and commercialization of cosmetic products containing cannabinoids is often considered a controversial situation, so it would be interesting to clarify upon this in addition to providing methods for analytical control.

This Special Issue calls for manuscripts related to cosmetic applications of cannabinoids in the market today, which contribute to providing scientific information on different topics such as skin benefits and efficacy studies, safety studies, regulatory aspects in different countries, methods of obtaining and producing raw materials, and chemical analysis of raw materials and finished cosmetic products containing cannabinoids.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Enzo Berardesca

Department of Dermatology and
Cutaneous Surgery, University of
Miami, Miami, FL 33136, USA

Message from the Editor-in-Chief

Cosmetics is an international, scientific, open access journal on the science and technology of cosmetics, published by MDPI online quarterly. Original articles, reviews and other acceptance. The scientific community and the general public can unlimitedly access the content free of charge as soon as it is published. As a new journal, the publication fees are fully waived for papers submitted to *Cosmetics* in 2017. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Dermatology*) / CiteScore - Q1 (Surgery)
