

Special Issue

Novel Synthetic Compounds and Natural Products for Pharmaceutical, Personal Care and Cosmetic: Analytical aspects, Structure Elucidation, Bioactivities and Formulation

Message from the Guest Editor

The cosmetic chemistry is in continuous development and every day new compounds, either specifically designed synthetic chemicals or Natural Products, reveal interesting properties for application in cosmetic production with different and specialized functions. There is an increasing interest of the cosmetic industry in the development of novel products with functional ingredients (for bioactivities but also for product stability). In this context both synthetic chemistry and Natural Products offer a wide plethora of compounds with different physico-chemical characteristic and possible applications. This Special Issue "Novel Synthetic Compounds and Natural Products for Pharmaceutical, Personal Care and Cosmetic: Analytical aspects, Structure Elucidation, Bioactivities and Formulation." wants to be a platform to present the utilization in cosmetic products of newly described compounds, either natural products and of synthetic origin. The overview of the current knowledge about their structural description, analytical aspects, bioactivities and technological functions may be provided through original papers, reviews and short communications.

About the Journal

Message from the Editor-in-Chief

Cosmetics is an international, scientific, open access journal on the science and technology of cosmetics, published by MDPI online quarterly. Original articles, reviews and other acceptance. The scientific community and the general public can unlimitedly access the content free of charge as soon as it is published. As a new journal, the publication fees are fully waived for papers submitted to *Cosmetics* in 2017. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Enzo Berardesca
Department of Dermatology and Cutaneous Surgery, University of
Miami, Miami, FL 33136, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Dermatology) / CiteScore - Q1 (Surgery)
