Innovations in Cosmetology: Bridging Scientific Evidence and Clinical Practice

Message from the Guest Editor

In recent years, the field of cosmetology has seen remarkable progress, particularly in the development and use of ingredients grounded in scientific research. Advances in understanding the skin's biology and how it responds to various active compounds have led to the creation of more effective and targeted cosmetic products. Innovations in skincare formulations, such as the incorporation of peptides, antioxidants, and novel delivery systems, have improved product efficacy, providing solutions for a wide range of skin concerns including aging, pigmentation, and hydration. Alongside these developments, the growing trend of personalized skincare has emerged, powered by advancements in genetic research and skin microbiome studies. These innovations enable the creation of customized products that are tailored to an individual's unique skin type and environmental factors. In this Special Issue, we invite authors to explore the latest scientific innovations in cosmetic ingredients and their clinical applications, highlighting how these advancements are shaping the future of skincare.

About the Journal

Message from the Editor-in-Chief

Cosmetics is an international, scientific, open access journal on the science and technology of cosmetics, published by MDPI online quarterly. Original articles, reviews and other acceptance. The scientific community and the general public can unlimitedly access the content free of charge as soon as it is published. As a new journal, the publication fees are fully waived for papers submitted to *Cosmetics* in 2017. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Enzo Berardesca
Department of Dermatology and Cutaneous Surgery, University of
Miami, Miami, FL 33136, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Dermatology) / CiteScore - Q1 (Surgery)
