Special Issue

Application of Plant-Based Molecules and Materials in Cosmetics

Message from the Guest Editor

Plant-based molecules and materials are commonly used in cosmetics due to their natural properties and perceived benefits for the body. These natural ingredients are generally considered to be safer and less harmful to the environment compared to synthetic ingredients commonly used in cosmetics. The use of plant-based molecules and materials in cosmetics is becoming increasingly popular due to their natural properties and perceived benefits for the body. Plant extracts and nanomaterials have numerous benefits when used in cosmetics. These plant-based cosmetics are known for anti-aging, anti-inflammatory, brightening, and moisturizing properties, for their ability to provide UV protection, and for their sustainability. Overall, plant extracts and nanomaterials have a wide range of benefits when used in cosmetics. They are natural, sustainable, and effective ingredients that can help to improve health and appearance. In this endeavor, this Special Issue invites research and review articles from researchers working on "Plant-Based Extracts, Molecules, Materials and Their Application in the Development of Cosmetics".

About the Journal

Message from the Editor-in-Chief

Cosmetics is an international, scientific, open access journal on the science and technology of cosmetics, published by MDPI online quarterly. Original articles, reviews and other acceptance. The scientific community and the general public can unlimitedly access the content free of charge as soon as it is published. As a new journal, the publication fees are fully waived for papers submitted to Cosmetics in 2017. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Enzo Berardesca

Department of Dermatology and Cutaneous Surgery, University of Miami, Miami, FL 33136, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Dermatology) / CiteScore - Q1 (Surgery)
