Cosmetics from Marine Sources

Message from the Guest Editors

Marine organisms are a highly diverse, renewable and abundant source of compounds. Some of them are unique compounds, having structural and biological properties not found in terrestrial species. The interest of the cosmetic industry in the development of novel skin care products with bioactive properties and nutricosmetics from marine sources is increasing. This Special Issue "Cosmetics from Marine Sources" is aimed at presenting the utilization of compounds from marine organisms and their incorporation in cosmetic products, to provide either technological functions or biological beneficial effects on human skin. This overview of the current knowledge in this field is provided through original papers, reviews and short communications. Dr. Herminia Dominguez

About the Journal

Message from the Editor-in-Chief

Cosmetics is an international, scientific, open access journal on the science and technology of cosmetics, published by MDPI online quarterly. Original articles, reviews and other acceptance. The scientific community and the general public can unlimitedly access the content free of charge as soon as it is published. As a new journal, the publication fees are fully waived for papers submitted to *Cosmetics* in 2017. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Enzo Berardesca
Department of Dermatology and Cutaneous Surgery, University of
Miami, Miami, FL 33136, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Dermatology) / CiteScore - Q1 (Surgery)
