

Special Issue

Discovering and Exploiting Natural Cosmetic Materials and Their Functional Mechanisms

Message from the Guest Editors

Natural products provide an interesting, largely unexplored source for the development of potential new cosmetic ingredients. As reflected in these facts, the global market demand for natural cosmetic ingredients such as plant extracts that can be used for depigmenting, antiwrinkle, and other cosmeceutical uses is also increasing. In fact, many global companies around the world are trying to develop inhibitors or activators related to collagen synthesis, melanogenesis, and skin inflammation. In addition, smart consumers using cosmetics tend to carefully review the mechanism of action of these inhibitors or activators. Accordingly, this Special Issue on “Discovering and Exploiting Natural Cosmetic Materials and Their Functional Mechanisms” is aimed at presenting novel data on natural products and single compounds with skin protection and improvement activities, at either the enzymatic or the cellular levels through original papers and short communications, but also to provide an overview of the current knowledge in this field through reviews.

About the Journal

Message from the Editor-in-Chief

Cosmetics is an international, scientific, open access journal on the science and technology of cosmetics, published by MDPI online quarterly. Original articles, reviews and other acceptance. The scientific community and the general public can unlimitedly access the content free of charge as soon as it is published. As a new journal, the publication fees are fully waived for papers submitted to *Cosmetics* in 2017. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Enzo Berardesca
Department of Dermatology and Cutaneous Surgery, University of
Miami, Miami, FL 33136, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Dermatology) / CiteScore - Q1 (Surgery)
