Bio-Optoelectronic Materials and Devices

Guest Editors:

Dr. He Sun

Joint Department of Biomedical Engineering, UNC-Chapel Hill / NC State University, Raleigh, NC 27695, USA

Dr. Guangfu Wu

Institute of Materials Science and Department of Biomedical Engineering, University of Connecticut, Storrs, CT 06269, USA

Dr. Lin Gan

School of Materials Science and Engineering, Huazhong University of Science and Technology (HUST), Wuhan 430074, China

Message from the Guest Editors

We are excited to announce a Special Issue of *Crystals*, titled "Bio-Optoelectronic Materials and Devices", which aims to gather work by leading experts and researchers who explore the latest advancements at the intersection of biology, optics, and electronics, specifically focusing on crystalline materials for next-generation bio-optoelectronic devices.

We invite you to contribute to this dynamic field by submitting your work for consideration. This Special Issue provides a platform for sharing groundbreaking research and insights that will advance our understanding and application of crystalline bio-optoelectronic materials.

For further details on manuscript submission and guidelines, please visit our Special Issue Guidelines page. We look forward to your valuable contributions.

Deadline for manuscript submissions:

20 September 2024

Department of Physics, University
of Pisa, 56126 Pisa, PI, Italy

Message from the Editor-in-Chief

Welcome to *Crystals*, the journal dedicated to the fascinating world of crystallographic research! Crystals are more than mere decorative elements; they hold the key to understanding the fundamental structure of matter. Our mission is to explore the crucial significance of this research across various fields. From medicine to technology, chemistry to geology, crystals play a vital role. Their structure provides insights into new advanced materials, innovative drugs, and groundbreaking technologies. Through *Crystals*, we delve into the microscopic world to discover solutions that will shape the future. Join us on a journey through the *Crystals*, where science merges with beauty and innovation.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [Inspec](#), [CAPus](#) / [SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Crystallography*) / CiteScore - Q2 (*Condensed Matter Physics*)
