Message from the Guest Editors

Dear Colleagues,

The Special Issue "Photocrystallography and Solid-State Structural Dynamics" will be dedicated to all aspects of modern photocrystallography and structural dynamics in the solid state. You are most welcome to contribute a research article to this Special Issue, presenting your particular scientific problems, related to structural changes induced by light or electric field, such as studies of solid-state reactions, excited state species, spin crossover processes, electron density polarisation, and so forth.

Deadline for manuscript
submissions:

closed (31 December 2018)

of Pisa, 56126 Pisa, PI, Italy

Message from the Editor-in-Chief

Welcome to *Crystals*, the journal dedicated to the fascinating world of crystallographic research! Crystals are more than mere decorative elements; they hold the key to understanding the fundamental structure of matter. Our mission is to explore the crucial significance of this research across various fields. From medicine to technology, chemistry to geology, crystals play a vital role. Their structure provides insights into new advanced materials, innovative drugs, and groundbreaking technologies. Through *Crystals*, we delve into the microscopic world to discover solutions that will shape the future. Join us on a journey through the *Crystals*, where science merges with beauty and innovation.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [Inspec](#), [CAPus](#) / [SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Crystallography*) / CiteScore - Q2 (*Condensed Matter Physics*)
