

Selected Papers from Taiwan Association for Academic Innovation, TAAI 2019

Guest Editors:

Prof. Dr. Chien-Jung Huang

Department of Applied Physics,
National University of Kaohsiung,
Kaohsiung 81148, Taiwan

Dr. Yeu-Long Jiang

Graduate Institute of
Optoelectronic Engineering,
National Chung Hsing University,
Taichung 40227, Taiwan

Prof. Fei Yu

College of Information Science
and Engineering, Huaqiao
University, Xiamen 361021, China

Deadline for manuscript
submissions:

closed (30 June 2020)

Message from the Guest Editors

On behalf of the Taiwan Association for Academic Innovation, we are pleased to welcome you to the 3rd IEEE and 4th International Conference on Science, Education, Viable Engineering (ICSEVEN) 2019 on April 6–10, 2019, Ho Chi Minh, Vietnam.

We hope that ICSEVEN 2019 will provide a great platform for academic and industry professionals to have fruitful discussions and to exchange new ideas about recent developments and the latest advances in the interdisciplinary field. It is our pleasure to announce the supportive participation of leading academics and researchers, in their respective areas of focus, from various countries, not only in but also beyond Asia. We invite you to participate in this conference by submitting a paper reflecting your current research and to excel in solar energy-related R&D worldwide.

Participants of the conference are cordially invited to contribute original research papers or reviews to this Special Issue of *Crystals*.

crystals

an Open Access Journal by MDPI

Department of Physics, University of Pisa, 56126 Pisa, Italy

Message from the Editor-in-Chief

Welcome to *Crystals*, the journal dedicated to the fascinating world of crystallographic research! Crystals are more than mere decorative elements; they hold the key to understanding the fundamental structure of matter. Our mission is to explore the crucial significance of this research across various fields. From medicine to technology, chemistry to geology, crystals play a vital role. Their structure provides insights into new advanced materials, innovative drugs, and groundbreaking technologies. Through *Crystals*, we delve into the microscopic world to discover solutions that will shape the future. Join us on a journey through the *Crystals*, where science merges with beauty and innovation.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [Inspec](#), [CAPus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Crystallography*) / CiteScore - Q2 (*Condensed Matter Physics*)
