Message from the Guest Editor

Every year on 8th of March, we celebrate the “International Women's Day” to honor the achievements of women. To highlight the influential contributions that women have made in the fields of Mineralogical Crystallography and Biomineralization research, we announce a Special Issue of *Crystals* entitled “Women in Mineralogical Crystallography and Biomineralization”.

Deadline for manuscript
submissions:

closed (15 December 2022)

All contributions will be considered for a best paper award, if at least 10 papers are published in this Special Issue. Each award nominee will be assessed on the paper's originality, quality, and contribution to the field by the Evaluation Committee. The winner will receive a certificate, an award of 500 CHF, and an opportunity to publish their next submission in *Crystals* free of charge.

Message from the Editor-in-Chief

Welcome to *Crystals*, the journal dedicated to the fascinating world of crystallographic research! Crystals are more than mere decorative elements; they hold the key to understanding the fundamental structure of matter. Our mission is to explore the crucial significance of this research across various fields. From medicine to technology, chemistry to geology, crystals play a vital role. Their structure provides insights into new advanced materials, innovative drugs, and groundbreaking technologies. Through *Crystals*, we delve into the microscopic world to discover solutions that will shape the future. Join us on a journey through the *Crystals*, where science merges with beauty and innovation.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [Inspec](#), [Ei Compendex](#), [CAPus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Crystallography) / CiteScore - Q2 (Condensed Matter Physics)
