

Special Issue

Computational and Experimental Approaches in Drug Discovery

Message from the Guest Editors

The main objective of this Special Issue is to provide a comprehensive overview of cutting-edge technologies in contemporary computer-aided drug design, which have been developed to speed up the drug discovery process and overcome the main issues faced by medicinal chemists in the identification and optimization of lead compounds, particularly highlighting the remarkable goals achieved so far. Thus, this Special Issue invites scholars from both academia and industry to submit their original research papers, review articles and case studies which primarily focus on computational strategies.

Guest Editors

Dr. Domiziana Masci

Department of Basic Biotechnological Sciences, Intensivological and Perioperative Clinics, Catholic University of the Sacred Heart, Largo Francesco Vito, 1, 00168 Rome, Italy

Dr. Antonio Coluccia

Laboratory Affiliated with the Institute Pasteur Italy—Cenci Bolognetti Foundation, Department of Drug Chemistry and Technologies, Sapienza University of Rome, Piazzale Aldo Moro 5, 00185 Rome, Italy

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Welcome to *Crystals*, the journal dedicated to the fascinating world of crystallographic research! Crystals are more than mere decorative elements; they hold the key to understanding the fundamental structure of matter. Our mission is to explore the crucial significance of this research across various fields. From medicine to technology, chemistry to geology, crystals play a vital role. Their structure provides insights into new advanced materials, innovative drugs, and groundbreaking technologies. Through *Crystals*, we delve into the microscopic world to discover solutions that will shape the future. Join us on a journey through the *Crystals*, where science merges with beauty and innovation.

Editor-in-Chief

Prof. Dr. Alessandra Toncelli
Department of Physics, University of Pisa, 56126 Pisa, PI, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Crystallography) / CiteScore - Q2 (Condensed Matter Physics)
