

## Special Issue

# Selected Papers from the 30th International Workshop on Industrial Crystallization (BIWIC 2025) on Crystals

### Message from the Guest Editors

The 30th International Workshop on Industrial Crystallization (BIWIC 2025) will be held in Tianjin, China from September 3rd to 6th, 2025,

<https://biwic2025.tju.edu.cn/>. The conference aims to share and discuss cutting-edge knowledge and achievements relating to industrial crystallization, explore novel and challenging industrial crystallization science topics through exchange and discussion, and promote close cooperation between academia and industry. This Special Issue will contain selected contributions from participants in the BIWIC 2025 Conference.

## About the Journal

### Message from the Editor-in-Chief

Welcome to *Crystals*, the journal dedicated to the fascinating world of crystallographic research! Crystals are more than mere decorative elements; they hold the key to understanding the fundamental structure of matter. Our mission is to explore the crucial significance of this research across various fields. From medicine to technology, chemistry to geology, crystals play a vital role. Their structure provides insights into new advanced materials, innovative drugs, and groundbreaking technologies. Through *Crystals*, we delve into the microscopic world to discover solutions that will shape the future. Join us on a journey through the *Crystals*, where science merges with beauty and innovation.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Crystallography) / CiteScore - Q2 (Condensed Matter Physics)
