

Special Issue

Biomaterials for Medical and Dental Applications

Message from the Guest Editors

Biomaterials are a unique group of materials whose special features are biocompatibility and bifunctionality, which determine the proper adaptation of the material in the tissue environment. This Special Issue on “Biomaterials for Medical and Dental Applications” aims to publish research and review articles on biomaterials’ applications and will cover several topics, including but not limited to:

New technology and biomaterials for regenerative medicine;

Novel biomaterials for orthopedic/musculoskeletal tissue engineering;

Novel biomaterials for regenerative medicine;

Surface functionalization or biomaterial modification;

In vitro and in vivo study of osseointegration;

Metallic biomaterials for medical applications;

Development of new metallic alloys for biomedical applications;

Biodegradable biomaterials and metallic implants in the tissue environment;

Material–tissue interfaces: the role of surface;

Toxicology and biocompatibility of biomaterials.

Guest Editors

Dr. Żaneta Anna Mierzejewska

Faculty of Mechanical Engineering, Institute of Biomedical Engineering,
Białystok University of Technology, Wiejska 45 C, 15-351 Białystok,
Poland

Dr. Alokesh Pramanik

Department of Mechanical Engineering, Curtin University, GPO Box
U1987, Perth, WA 6845, Australia

Deadline for manuscript submissions

closed (31 August 2023)

About the Journal

Message from the Editor-in-Chief

Welcome to *Crystals*, the journal dedicated to the fascinating world of crystallographic research! Crystals are more than mere decorative elements; they hold the key to understanding the fundamental structure of matter. Our mission is to explore the crucial significance of this research across various fields. From medicine to technology, chemistry to geology, crystals play a vital role. Their structure provides insights into new advanced materials, innovative drugs, and groundbreaking technologies. Through *Crystals*, we delve into the microscopic world to discover solutions that will shape the future. Join us on a journey through the *Crystals*, where science merges with beauty and innovation.

Editor-in-Chief

Prof. Dr. Alessandra Toncelli
Department of Physics, University of Pisa, 56126 Pisa, PI, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Crystallography) / CiteScore - Q2 (Condensed Matter Physics)
