

Special Issue

Frazil Ice—Physical and Engineering Aspects

Message from the Guest Editors

The aim of this Special Issue is to collect contributions that discuss methodological and multidisciplinary approaches used to study frazil ice evaluation and its effect on water management. The following questions have been posed as guideposts for consideration:

- How does frazil ice form in natural inland waters and how could it be described in mathematical models?
- How is frazil ice evaluated in flowing water and how is it dependent on thermal and flow conditions?
- What are the engineering methods used for the mitigation of ice frazil-ice-related problems?

Guest Editors

Dr. Tomasz Kolerski

Faculty of Civil and Environmental Engineering, Gdańsk University of Technology, 80-233 Gdańsk, Poland

Dr. Fengbin Huang

Clarkson University, NY, USA

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Welcome to *Crystals*, the journal dedicated to the fascinating world of crystallographic research! Crystals are more than mere decorative elements; they hold the key to understanding the fundamental structure of matter. Our mission is to explore the crucial significance of this research across various fields. From medicine to technology, chemistry to geology, crystals play a vital role. Their structure provides insights into new advanced materials, innovative drugs, and groundbreaking technologies. Through *Crystals*, we delve into the microscopic world to discover solutions that will shape the future. Join us on a journey through the *Crystals*, where science merges with beauty and innovation.

Editor-in-Chief

Prof. Dr. Alessandra Toncelli
Department of Physics, University of Pisa, 56126 Pisa, PI, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Crystallography) / CiteScore - Q2 (Condensed Matter Physics)
