

Special Issue

Metal Oxide-Based Nanomaterials: Advances in Synthesis, Characterization, and Applications

Message from the Guest Editors

We are thrilled to present this Special Issue, designed to establish an engaging and inclusive forum for researchers to highlight groundbreaking innovations in metal-oxide-based nanomaterials. This Special Issue will feature research papers on novel synthesis methods, state-of-the-art characterization techniques, and the investigation of various impactful applications in critical sectors such as energy, environmental science, catalysis, and biomedicine. By uniting pioneering research, this Special Issue aims to enhance our comprehension of these transformative materials and their capability to tackle significant global challenges related to sustainability, healthcare, and advanced technology.

Guest Editors

Dr. Jorge Manuel Silva-Jara

Dr. Diego Eloyr Navarro-López

Dr. Luis Miguel Anaya-Esparza

Dr. Miguel Angel López-Alvarez

Deadline for manuscript submissions

20 January 2026

About the Journal

Message from the Editor-in-Chief

Welcome to *Crystals*, the journal dedicated to the fascinating world of crystallographic research! Crystals are more than mere decorative elements; they hold the key to understanding the fundamental structure of matter. Our mission is to explore the crucial significance of this research across various fields. From medicine to technology, chemistry to geology, crystals play a vital role. Their structure provides insights into new advanced materials, innovative drugs, and groundbreaking technologies. Through *Crystals*, we delve into the microscopic world to discover solutions that will shape the future. Join us on a journey through the *Crystals*, where science merges with beauty and innovation.

Editor-in-Chief

Prof. Dr. Alessandra Toncelli
Department of Physics, University of Pisa, 56126 Pisa, PI, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Crystallography) / CiteScore - Q2 (Condensed Matter Physics)
